

“PRODUCTS THAT CARE”

For more than 35 years, JVD has been committed to offering protection and care. Care for you, your health and your comfort. But also protection for your environment. We create and manufacture products that make sense, for both you and our planet.

PRODUCTS FOR EVERYONE, EVERYWHERE AND FOR A LONG TIME

All our products are developed and tested by our teams to ensure user comfort and well-being, anytime, anywhere. The kind of objects people handle every day without really thinking about them, from the now iconic hand dryers to soap dispensers.

At each hotel, restaurant, café, airport and office, JVD's collective hygiene and wellness equipment is there for all the moments that make up our daily lives. Many of our products are certified sustainable, made in France (in Rezé) and respectful of our planet, to preserve it for the generations to come.

JVD.COM.SG QR CODE

THE FRENCH KNOW-HOW

Based in Nantes, in the west of France, JVD is the leading designer and manufacturer of hygiene and hotel equipment and solutions. Backed by our unique know-how, our company has now expanded into more than 100 countries around the world.

COMMITTED TO YOU AND THE PLANET

JVD is dedicated to the idea of transmission, and our teams make it a point of honour to work hard each day towards an ecological transition which looks out for everyone's well-being.

Which is why, in an era where planned obsolescence has become the norm, we are committed to designing sustainable products for our clients. We also prioritize partners located as close as possible to our production unit so as to reduce the environmental impact of our transport.

We believe in the role we have to play in our shared future. So, it is only natural that we see eco-responsibility as one of the key pillars of our strategy today.

BATHROOM BASICS

APPRECIATED BY MORE THAN 2/3 OF SURVEYED GUESTS

Long obligatory at 4-star and higher hotels, hair dryers are now becoming increasingly crucial for any hotel. According to a study by the CMHF (Committee for the Modernization of French Hotels), They are the bathroom accessory which guests miss the most when not available. Additionally, the CMHF revealed that: «Guests, particularly female guests, are very fond of them. It means they do not have to bring their own, which is necessarily impractical when travelling.»

CHOOSING THE RIGHT HAIR DRYER

A QUESTION OF POWER?

Contrary to preconceptions, the choice of a hair dryer is not a question of power. Although power can be a good indicator, some appliances are designed to yield a superior quality of drying despite having less power and so using less energy. In addition, very hot, powerful drying is not suitable to all hair types. As a result, it is important to offer solutions to guests which allow them to adjust the speed and heat of the hair dryer. Solutions which allow guests to adjust the speed and heat of the hair dryer.

IONIZING SYSTEM

Some hair dryers include an ionizing system. The generated ions neutralize the static electricity that can appear on hair while drying it. This lower temperature system greatly improves the speed of drying. The generated ions neutralize static electricity.

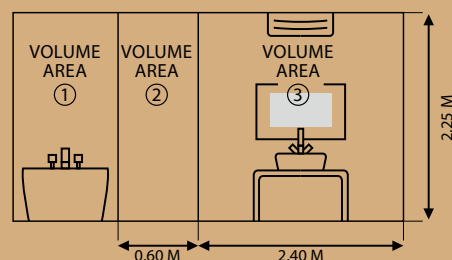

CONSTRAINTS SPECIFIC TO HOTELS

FOR EVERYONE'S SAFETY

A hotel's hair dryers are not subject to the same constraints as hair dryers marketed to the general public. Outside the strict standards which must be met, hotel hair dryers may sometimes be used in unintended ways (theft, to dry clothes, shoes, etc.). And so they should be designed to limit those uses (e.g. JVD LighTouch handle, timer, anti-theft protection, etc.). They should also fit stylishly into bathrooms by means of a dedicated support which can also be used to offer shaver sockets suitable for an international clientele.

WHERE SHOULD A HAIR DRYER GO?

To protect your guests against the risk of electrocution, standard NF C 15-100 defines the required distance between electrical appliances and the main water tap (bathtub or shower). Only hair dryers with hoses can be installed close to them (volume area ②). All other devices must be installed as well as possible in volume area ③.

THE LIGHTOUCH® RANGE

DESIGNED TO RESPOND SPECIFICALLY TO HOW HAIR DRYERS ARE USED IN HOTELS. THE PATENTED 'LIGHTOUCH' HANDLE HAS ALREADY WON OVER THOUSANDS OF HOTELS AROUND THE WORLD.

OUR KETTLES & WELCOME TRAYS

Elegance, design and ergonomics: the threefold expectations which inspire our products. Over a cup of hot chocolate, tea or coffee, each moment becomes a time of comfort, relaxation and well-being.

MINI CORSETO
REF 8 66 1612

PAGES
20 TO 29

EVERYTHING YOU NEED TO KNOW TO CHOOSE THE RIGHT PRODUCT

KETTLES

With a combination of functionality, elegance and clever technology, our kettles will be able to accompany your guests' morning wake-up routines and moments of relaxation. Conceived specifically for hotels, they are also easy on your teams.

TRAYS

The essential accessory to showcase your welcome products and to put the final touch of design on your rooms. Our broad range of trays ensure there is something to suit any environment. With the possibility of incorporating the base of one of our kettles, they combine to form a perfect whole.

ESPRESSO MACHINES

Our machines are designed to offer a simple solution which will make delicious espresso for your guests. No need for a dedicated space: thanks to their small size, they can fit anywhere. The options offered by our espresso machines provide something for any urge, any moment and any guest.

A WORD FROM THE DESIGNER

"In recent years, we have witnessed a profound change in hotel room design. We have shifted from often stereotypical settings to places for experiences.

For guests, the time spent there should be atypical, personal and sometimes even surprising. Our products' design further contributes to this new trend.

Arranged in increasingly varied environments, they add their own aesthetic touches whilst either fitting in seamlessly or boldly standing out. Naturally, in addition to their decorative aspects, each object must also offer services specific to a hotel room, in a way which is efficient, robust, safe and faithful to the hotel's philosophy. They should be simple, universal and ergonomic in their use. Our products are inspired by this twofold expectation of practicality and aesthetics."

Jean-Guy de Russé

DIVA 1L DOUBLE WALL

HIGHLIGHTS

DOUBLE WALL
Quieter, holds heat longer, no risk of burns

HYGIENIC
Inner wall & lid made of 100% stainless steel

SAFE
Auto shutoff by simply gripping the Switchsafe® handle

EASY TO OPEN
Opens with one hand thanks to an assisted opening lid

EASY TO CLEAN
Wide opening makes it easy to clean

CHARACTERISTICS

- Power: 220~240V, 50/60Hz
- Power rating: 1500W

HIGHLIGHTS

- + Space-saving system
- + Combines board with foldable hook, iron holder and board hanger into one
- + Swivel iron rest
- + Heat resistant board cover

CHARACTERISTICS

- Heavy-duty, multi welded construction
- Foldable hanging hook, swivel iron rest
- Steel mesh top for good heat flow
- Automatic locking when folded
- Adjustable height, non-slip end caps
- Folded H1280 x W355 x D180mm
- With hook extended H1330mm
- Iron surface 783/330mm
- 2 units per carton

BOARD COVER

- Bungee cover with padding in one-piece
- Luxurious 10mm thick
- Tested for heat resistance
- Double side (reversible) black cover

OUR SAFE

TRUSTEE PLUS
REF TS PLUS

JVD safes have been synonymous with peace of mind. Your guests have access to a robust and secure storage solution for their belongings.

With JVD Safe Service Unit, managing safes have never been easier and more secure.

**PAGES
58 TO 64**

EVERYTHING YOU NEED TO KNOW TO CHOOSE THE RIGHT SAFE

ILLUMINATED

Our safes are designed with a backlit keypad and interior lighting to make it simple and easy to use.

SECURE

Our safes are fitted with an electronic anti-aggression mechanism & are blocked for 15 minutes after 4 failed attempts.

PRACTICAL

If your guests forget their code, our safes can be unlocked using the electronic Service Unit

SMART

Thanks to the advanced audit trail feature, it is easy to view a history of actions (records of the dates and times when the safe was opened) and to unlock the safe.

A WORD FROM THE DESIGNER

"Fortress safe is created to be effective. To reflect a spirit of tradition and to provide reassurance, a very simple general design was created: a circle in a rectangle, the very symbol of a safe. Thanks to a very refined treatment of the design, the product possesses a very modern, timeless dimension. Two other strengths make the product rather ingenious: the very discreet grip to the left of the front plate and a slightly tilted keypad to improve numbers visibility for users especially when the product is installed at a low height."

Jean-Guy de Russé

SMART KEY PIN (SKP-SU)

The SKP is developed by JVD for smaller hotels to manage their daily operations. The SKP is easy and convenient to use and yet secure.

- Easy to use
- No complicated software
- Secure
- Supports safes by providing external battery power

CHARACTERISTICS

- Code locking (4 to 6 digits)
- Power 4x1.5V AA cells
- 20mm diam. dual steel bolts
- Anti-tamper labyrinth
- Inside light & Buzzer
- Lighted LED keypad buttons
- ADA compliant keypad panel
- Non-volatile memory system
- Security lock-out 15 minutes
- Audit trail 200 past events
- Mechanical key override
- Fastening at base and back

Service Unit Options :

- FTS-SKP-SU Smart Key Pin
Performs emergency openings
Provides external power to safe

- PSU Prolog Service Unit

OUR MINIBARS

JVD minibars are fitted with next-gen smart technologies. Whether they are thermo-absorption, heat-absorption or smart-compressor systems, our minibars are completely silent and reliable.

EVERYTHING YOU NEED TO KNOW TO CHOOSE THE RIGHT MINIBAR

HEAT-ABSORPTION

The conventional heat-absorption minibars generate cold by heating a mixture of gas. The system is highly reliable and completely silent in operation.

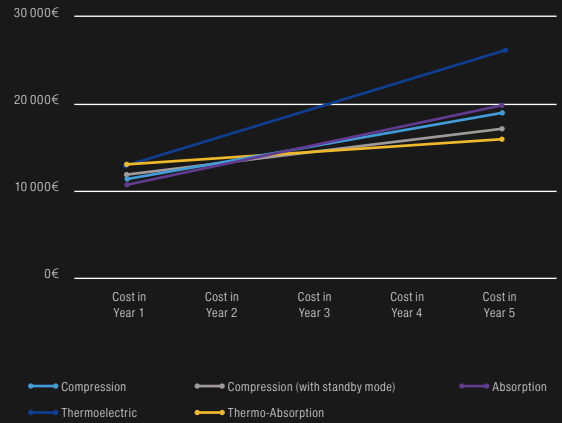

SMART COMPRESSOR

Smart compressor minibars come with in-built control panel allows users to make quick cooling when required. It allows for silent cooling when it matters most in the night.

THERMO-ABSORPTION

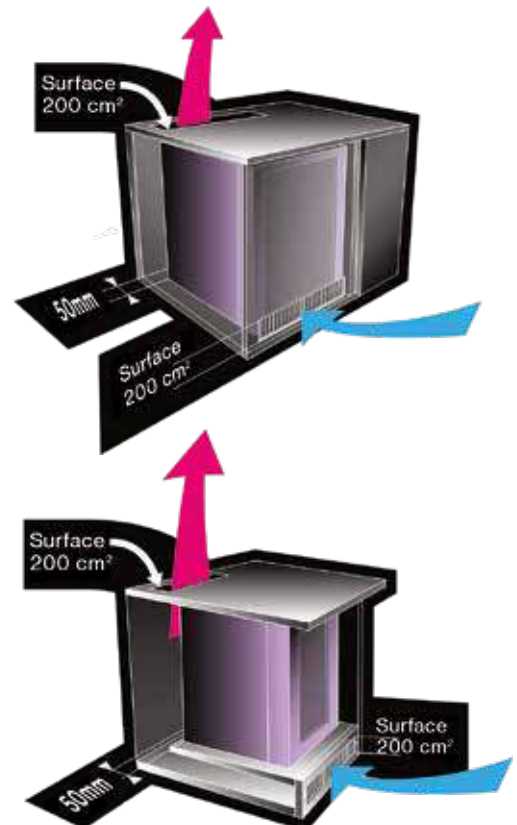

Next generation thermo-absorption minibars blend the Peltier effect with absorption to generate cold. They are ecological, reliable and completely silent, consuming 66% less energy and therefore quickly offsetting the slightly higher cost (in less than a year).

TOTAL COST PER 100 ROOMS

VENTILATION REQUIREMENT

To achieve best cooling performance and optimal lifespan, the minibar needs at least 200cm² free air inlet. This space should be kept constant until the air outlet at the top of the cabinet surface. The rear of the minibar should also be at least 50mm clear from the furniture wall.

OUR MIRRORS

Our mirrors are the result of a special alchemy melding innovation, performance and design. They invite guests to enjoy a unique experience with complete simplicity.

|
**PAGES
76 TO 85**

NO ELECTRICAL CONNECTION REQUIRED

Our Cosmos and Galaxy mirrors run on a lithium battery and a 3 minute auto off system ensuring longevity of 3 to 5 years. Offering complete electrical safety, they can be installed in any volume area of the bathroom

DESIGNED AND MADE IN FRANCE

Concocted by our Design Department specifically for use in hotel bathrooms, our illuminated mirrors are designed in France.

TILTABLE TO ANY ANGLE

Thanks to their double or triple rotational axis, our mirrors offer your guests the best possible reflection.

ECO-RESPONSIBLE

Our illuminated mirrors are fitted with LED lighting to maximize their lifespan without having to change the bulbs and to reduce their energy consumption.

A WORD FROM THE DESIGNER

"Mirrors invite us to enter a new dimension.

The magnifying function of a mirror allows us to enter into a universe where everything is bigger. I wanted this voyage to take us even further, so I drew inspiration from flying saucers in designing this mirror. I added a revolutionary battery operated «motor», unique on the market.

I structured the whole thing around a chrome base, to which I added a ring of light like the ones around Saturn. And lastly, I added an almost magical capacitive switch."

Jean-Guy de Russé

JVD. PRODUCTS THAT CARE

Hygiene, health, wellness and more... For more than 35 years, JVD has been designing, inventing, testing, developing and manufacturing products whose sole purpose is to take care of you, your employees, your customers and your visitors.

Taking care is so deeply rooted in our culture that we also take care to protect our environment by emphasizing eco-design, being environmentally responsible and prioritizing local partners and suppliers.

This care-taking mission, so near and dear to our hearts, is expressed through our creation of products dedicated to current and future uses, and designed to last.

JVD. Products that care.

OUR PURIFIERS

JVD SMART MINERALIZATION®

JVD's technology treats all sources of pollution and contamination until they are 100% harmless. Odours, viruses, bacteria, mould, allergens, pollutants and contaminants dispersed as particulate matter in the ambient air, nothing can withstand it.

Shield®

ISO 16000-37

EN 1822

ISO 16897

EVERYTHING YOU NEED TO KNOW ABOUT SHIELD PURIFIER

**JVD Shield serves one single purpose:
to restore your air's original purity**

HOW JVD SMART MINERALIZATION® works

JVD's technology treats all sources of pollution and contamination until they are 100% harmless. Odours, viruses, bacteria, mould, allergens, pollutants and contaminants dispersed as particulate matter in the ambient air, **nothing can withstand it.**

PROTECTIVE BENEFITS: PURIFYING AIR, PRESERVING LIFE

- 1 By eliminating allergens & pollutants
- 2 By protecting the immune system
- 3 By eliminating unpleasant odours and restoring the original atmosphere and pure, clean air

SHIELD'S ADVANTAGES

DESIGNED FOR YOU AND FOR OUR PLANET

Our solution was created not only to protect your health but also to preserve the environment, thanks to the fact that it uses no consumables and is manufactured with an emphasis on low impact materials

ALL THE QUALITY OF A MADE IN FRANCE PRODUCT

The entire range is devised, designed and produced by our teams in Reze, near Nantes (in Brittany). Likewise, most of the components are manufactured within a 100 kilometre radius of our plant, thanks to commitments made with our local suppliers

A RANGE CREATED BY RAMY FISHER

Ramy Fisher is the founder of RF Studio agency, was named Designer of the year in 2018 and was awarded the Orders of Arts and Letters by the French Ministry of Culture and communication in 2016

SHIELD

SHIELD
Matt Black
REF 8 77 2127-BK

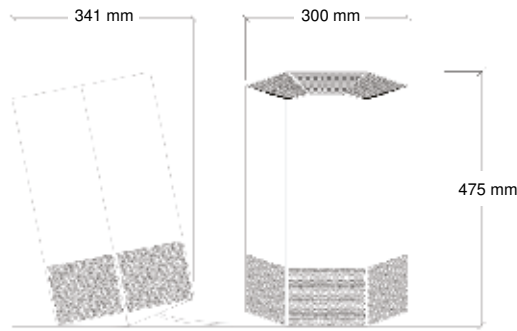

AN INTUITIVE INTERFACE

FOR EASY, COMPREHENSIVE CONTROL OF YOUR AIR QUALITY

CHARACTERISTICS

- Supply voltage : 200-240V
- Power: 85 W
- Air Purification: Smart Mineralization®
- Negative ions and plasma
- Coverage selection: 20m2/40m2/60m2
- Operation mode: 8 hours continuous & Boost
- CADR Clean Air Delivery Rate: 400m³/h
- Sound level: 38-68 dBA (boost mode)
- Dimensions: H475/W300/D300mm
- Weight: 8.75 kg
- Visual indicator for change of CORE (filter)
- Every 3 years (depend on site conditions)
- HEPA filter H13
- UV-C Lamp Lifespan: Approx. 8000 hours

BENEFITS

By reducing the risk of cancer and endocrine disease (eliminating pollutants PM10 and PM2.5)

Neutralizing the compounds responsible for allergies; Grass and free pollens, animal hair and dust mites

Protects the immune system (fighting viruses, bacteria and mould)

Eliminates VOC, NOX, SOX, Ozone, and odours from tobacco, cooking, body etc. Restoring the original atmosphere; Pure and clean air

ADJUSTABLE HEIGHT
OPTIMIZED TO ADAPT TO YOUNG
AND OLD ALIKE

ERGONOMIC
THANKS TO ITS ABILITY TO SPIN
180°!

EASY TO CLEAN
NO CLOGGING OF THE RAILS,
BECAUSE ALL SURFACES ARE
ACCESSIBLE

HIGHLIGHTS

ADJUSTABLE HEIGHT Optimized to adapt to young and old alike

ERGONOMIC Thanks to its ability to spin 180°!

EASY TO CLEAN No clogging of the rails, because all surfaces are accessible

- + Quiet (70 dB)
- + Longevity (induction motor)
- + Corrosion resistant in chlorinated atmospheres
- + On/off button to simplify maintenance
- + Designed specifically for public restrooms of swimming pool complexes, gyms, spas, aqua themeparks

CHARACTERISTICS

- Adjustable height
- 180° rotation
- Suitable for intensive usage
- Anti-vandalism: IK10 ABS cover
- Rated power 2000W
- Power supply 220V~240V, 50 Hz
- CE - Class II - IP23
- Support dim. H1153/L138/D148mm
- Hair dryer dim. H348/L150/D384mm

Metal lid over bag to contain odour

CHARACTERISTICS

- Metal construction
- Epoxy power-coated
- With top organizer
- Full bag & 3/4 bag with zippers
- Metal lid on bags to contain odour
- 3 fixed shelves as standard
- Full wrap-around rubber bumper
- 8" solid wheels (2 fixed, 2 swivel)
- Swivel with brakes
- 4x4" revolving corner bumper wheels
- Weight approx. 42 Kg
- Load capacity up to 100 Kg
- Anthracite grey finishing
- Partial unassembled for shipment
- 1 unit per carton

ALLOWS TO HALVE
CONSUMPTION OF GEL SOAP

OUR HAND DRYERS

A hand dryer should not be chosen at random. Whether your constraints relate to usage, maintenance, noise or vandalism resistance, we have a large array of equipment suited to your environment.

EVERYTHING YOU NEED TO KNOW TO CHOOSE THE RIGHT HAND DRYER

VANDALISM RESISTANCE

In some places, special attention needs to be given to vandalism resistance. **Standard NF EN 62262 provides a clear interpretation of this level of resistance with the IK index. IK10 is the highest level of resistance.** A device of this type is able to tolerate at least a blow from a 5 kg sledgehammer. Devices with an aluminium or steel cover are even more resistant.

HOT OR COLD AIR

If the washroom in question has little to no heating, a cold sensation during hand drying can be unpleasant. And so we recommend opting for a **hand dryer which uses evaporation or jet air with a heating element.**

NOISE

The sound of a hand dryer can become a nuisance if located nearby an office or restaurant dining room. Most hot air hand dryers are relatively quiet. Some jet air hand dryers also manage to combine power with a low noise level.

HAND DRYERS VS PAPER TOWELS

Electric hand dryers offer the most responsible way to dry one's hands.

0 consumables | **10 times less** | **Up to 75% lower**
 0 waste | expensive than paper | carbon emissions

USAGE LEVEL

A hand dryer should provide a solution which is compatible with the level of usage of the washroom.

- **For places with little usage** (< 50 visits daily), all three solutions are possible.
- **For places with normal usage** (50-250 visits daily), the cost of paper becomes prohibitive.
- **For places with high usage** (250-400 visits daily), jet air hand dryers are the only solution capable of guaranteeing cost control and a fast drying time.
- **Lastly, for places with intensive usage** (> 400 visits daily), the chosen hand dryer should have a brushless motor or an induction motor.

ECOLOGICAL FOOTPRINT

It takes 17 trees to produce one tonne of paper. Its manufacturing and transport then generate significant amounts of CO2. For example, the French leader in paper consumables generates 30,000 tonnes of CO2 annually, just to transport its paper within France. In this respect, hand dryers are the ideal solution for reducing your ecological footprint.

Next-gen jet air hand dryers consume very little energy, and the absence of consumables renders the impact of transport anecdotal at best.

INITIATIVE EAU&VIE

JVD joins the Eau&Vie association in its fight for permanent access to quality running water and the development of collective awareness about the importance of hygiene in deprived urban neighbourhoods. **We also wanted to contribute to the dissemination of our values by engaging our clients in this common perspective.** Therefore, we have joined forces with the Eau&Vie association and set up a partnership to fight for access to running water for all.

For every hand dryer in the Air range (Exp'Air, Stell'Air, Copt'Air and Sup'Air) purchased a hygiene kit will be distributed in underprivileged neighbourhoods in the Philippines.
